

Internship / Industrial Training Logbook

Outcome-Based Internship Monitoring Log

Student Details

Student Name	Piyush Kumar
Roll Number	24TEC2CS114
Program / Branch	B.Tech(CSE)
Organization Name	CodeAlpha
Industry Mentor Name	
Faculty Mentor Name	Dr.Muquaddar Ali

Daily / Weekly Activity Log:

Week-1 (20 June 2026 – 27 June 2026)

Date	Task / Work Assigned	Tools / Technologies Used	Learning Outcomes / Skills Gained	Hours Worked	Industry Mentor Signature	Faculty Remarks
20-Jun-2026	Orientation and introduction to the Frontend Development internship; reviewed project requirements and workflow.	HTML5, CSS3, VS Code	Understood frontend development workflow, project structure, and basic web-page organization.	2		
22-Jun-2026	Created the basic structure of web pages and practiced semantic HTML elements.	HTML5, VS Code	Improved semantic HTML, page structure, headings, links, lists, and forms.	2		
24-Jun-2026	Designed page layouts using CSS selectors, properties, box model, spacing, and typography.	CSS3, VS Code	Gained practical CSS styling skills and understanding of the box model and layout.	2		
26-Jun-2026	Built navigation sections and reusable content blocks for a frontend webpage.	HTML5, CSS3	Learned reusable page sections, navigation design, alignment, and	2		

			consistent styling.			
27-Jun-2026	Practiced responsive layouts and adjusted pages for different screen sizes.	CSS3, Flexbox, Media Queries	Learned responsive design principles, Flexbox alignment, and mobile-friendly layouts.	2		

Week-2 (29 June 2026 – 6 July 2026)

Date	Task / Work Assigned	Tools / Technologies Used	Learning Outcomes / Skills Gained	Hours Worked	Industry Mentor Signature	Faculty Remarks
29-Jun-2026	Added JavaScript interactions such as buttons, events, and simple DOM updates.	JavaScript, HTML5, CSS3	Understood JavaScript basics, event handling, and DOM manipulation.	2		
01-Jul-2026	Created interactive form elements and added basic input validation.	JavaScript, HTML5	Improved form handling, validation logic, and user-input processing.	2		
03-Jul-2026	Developed a small responsive frontend component/page based on the internship task.	HTML5, CSS3, JavaScript	Applied HTML, CSS, and JavaScript together to build a functional frontend interface.	2		
04-Jul-2026	Tested the webpage on different viewport sizes and corrected layout issues.	Chrome DevTools, CSS3, JavaScript	Learned browser debugging, responsive testing, and fixing UI/layout issues.	2		
06-Jul-2026	Improved UI styling, spacing, typography, and component consistency.	CSS3, Flexbox, VS Code	Developed attention to UI details, visual consistency, and cleaner CSS organization.	2		

Week-3 (8 July 2026 – 20 July 2026)

Date	Task / Work Assigned	Tools / Technologies Used	Learning Outcomes / Skills Gained	Hours Worked	Industry Mentor Signature	Faculty Remarks
08-Jul-2026	Integrated multiple frontend sections into a complete responsive webpage.	HTML5, CSS3, JavaScript	Strengthened page integration, responsive layout, and frontend problem-solving skills.	3		
10-Jul-2026	Debugged JavaScript and layout issues and refined interactive features.	JavaScript, Chrome DevTools	Improved debugging, error identification, and systematic problem solving.	3		
13-Jul-2026	Performed final UI testing and corrected minor functionality and presentation issues.	HTML5, CSS3, JavaScript, Chrome DevTools	Learned basic testing practices and final quality checks for frontend projects.	3		
15-Jul-2026	Prepared project files, organized code, and reviewed the completed frontend work.	VS Code, HTML5, CSS3, JavaScript	Improved code organization, documentation habits, and project readiness.	3		
20-Jul-2026	Completed internship tasks and reviewed overall learning from the Frontend Development internship.	HTML5, CSS3, JavaScript, VS Code	Consolidated frontend development skills and reflected on practical project learning.	3		

Mid-Term Review

Progress Summary	Completed core HTML/CSS tasks and started JavaScript-based interactivity. Progress was satisfactory across the first part of the internship.
Strengths	Good consistency in learning frontend concepts, practical implementation, and responsive design.
Areas for Improvement	Improve advanced JavaScript, code optimization, and independent debugging speed.
Faculty Mentor Comments	

Final Evaluation Summary

Key Contributions	Developed and refined responsive frontend webpages, added interactive features, and completed testing/debugging activities.
Skills Developed	HTML5, CSS3, responsive design, Flexbox, JavaScript, DOM manipulation, form validation, browser debugging, and UI development.
Industry Feedback	Completed the assigned Frontend Development internship activities with regular practical learning.
Overall Performance	Satisfactory completion of the one-month Frontend Development internship.
Final Grade/Remarks
